About Us

Our Company

Founded in 1994, Tributes is a family-owned supplier providing innovative, creative and memorable products to the funeral sector, including crematoria.

From the start, customer service and quality have been our driving ethos and as a result, we have strong working relationships with our trade customers, many have been with us for decades. As their businesses have evolved so has ours, and we have developed many of our products in partnership with our customers, responding to their needs and changing consumer demands. One example of our innovative approach is the Scatter Tube, invented by us and increasingly used by many crematoria as their standard ashes return option.

Vice President, Sales & Marketing -
Alan Boot-Handford

Our Products

Our products are designed in-house and some are manufactured in our own workshops in the UK. Others are sourced from many parts of the world, always with emphasis on high quality, environmental sustainability and fair trade. We are constantly reviewing our designs and pay close attention to feedback, enabling us to tailor our products to provide exactly what our customers need. If required we can offer bespoke products with a full “design-to-production” service.

Environmental & Shipping Information

We take our responsibility towards managing global resources seriously and do our utmost to source our products ethically and with consideration to environmental and social impacts. We regularly review our products and procedures in order to make improvements. In particular, as far as possible, we:

- Transport our products in ways which minimize environmental impact.
- Use packaging made from recycled material.
- Insist our suppliers source raw materials in a responsible and sustainable way.
- Ensure our products, where appropriate, are made from 100% natural biodegradable materials.
- Regularly visit all our manufacturers to inspect working standards and practices and offer support in production methods where necessary.
- Use community based manufacturing where possible, such as in villages and co-operatives, rather than large factories. This, in turn, supports rural economies and reduces the environmental impact of commuting and migrant working and the consequent social impact on families.

Shipping & Returns

“No Arguments” Return Policy

At Tributes we are passionate about giving excellent customer service. We strive to give our customers creative, good quality, value for money products, delivered in the very best condition. However, we recognize that there can be occasional mishaps and we have a straightforward “no arguments” returns policy. If you are ever dissatisfied with the quality of any of our products on receipt, please let us know and we will dispatch a replacement to you immediately,* free of charge, or issue a credit note.

*Subject to stock availability

In the event of late delivery, damaged, or missing goods, we ask that you let us know, if possible, within one working day. This helps us if we need to make a claim against the courier. If an insurance inspection is required, we will arrange for the collection of damaged goods.

The Original Scatter Tubes

Scattering Solutions

Invented by us in 2007

Since we invented and launched the Scatter Tube in 2007, it has grown in popularity every year. We are constantly developing new designs to reflect the wishes of our customers and welcome inquiries for bespoke designs and sizes.
